MONEY BACK. In the event that any nursery stock sold by Seller Company proves untrue to name as labeled, Seller Company agrees, on satisfactory proof to it of such untruthfulness to name, to refund that portion of the order so proven to it to be untrue to name, or, at its option, to refund the purchase price paid therefor, and as the Seller Company does not give any warranty, express or implied, in respect to any nursery stock sold by it, the purchaser's or any one else's damages, if any, for any breach of this contract, or any special contract herein contained, by Seller Company, shall be limited to the refunding of that portion of the order, or to the refunding of the purchase price paid therefor, as above stated. WE REPLACE As follows: Stark Bro's desire is to satisfy every customer—that has been our policy for nearly 125 years. We guarantee Stark Nursery Stock to reach the customer in good condition, and we will refill absolutely FREE any stock that does not reach customer in good condition, provided we are notified immediately on arrival of order so that we can make claim with the railroad or other transportation company. We do not replace, free, nursery stock that fails to live. Possible neglect of planter and unavoidable climatic conditions prevent guaranteeing trees and plants to grow.

HALF PRICE REPLACE. We will, however, replace at 1/2 the current Each Rate Prices, any trees, etc. that die the first summer—if customer notifies us before August 1st following.

PARCEL POST ORDERS. We can ship 3 to 5 ft. size trees or smaller by parcel post. Also grape vines, berry plants and small size Ornamentals.

A Home Orchard Will Feast YOUR Family

Home Orchard of G. B. Mays, Champaign Co., Ill. All Record-Bearing Strain Stark Trees. In One Year He Sold 47 bu. of Cherries, 54 bu. Of Plums and 90 bu. Of Apples Besides All The Family Ate and Put Up For Winter Use. This Little Orchard-Vineyard Has Netted Him About \$700.00 Profit Per Year For Years.

You have enough spare ground in your Home Yard or Farm to set out one of the home orchards offered below of a few trees that will bear all the fruit from early to late each season that your family can eat—plenty to “put up” for the balance of the year—and, lots more that you can sell on a roadside stand or in nearby towns—often paying for the trees with the first crop.

As Prof. T. J. Talbert, Missouri State Horticulturist, stated in the Kansas City Star of March 23, “A Small

Orchard Will Prove An Asset To The Farm.”

Prof. Talbert goes on further to say: “Many think that the home orchard will require an undue amount of work. This is not true for the home orchard of one acre or less.

“The prospective home orchardist should keep in mind the MAIN OBJECT OF THE HOME ORCHARD IS TO SUPPLY ENOUGH FRUIT FOR THE FAMILY. With proper care and attention, no similar area on the farm will produce for the time and labor employ-

ed as great returns to the yearly food supply of the family as the home orchard.”

The “one crop” farming idea has been banished. All wise farmers know that they should raise some hogs, cattle, poultry and that they should plant other crops besides just corn or wheat. The basic idea of RAISE MOST OF WHAT YOU EAT RIGHT ON YOUR OWN FARM has again become the motto of shrewd farmers—for both health and economy. No farm is complete without a home orchard.

Orchard Experts selected the varieties in these Splendid Collections. If any variety becomes exhausted they will include a similar sort of equal worth.
